

CNC Cutting Machine for Leather & Synthetic Material CZ-L

TITLED TABLE AND TELESCOPIC ARM

MICRO-SECTOR VACUUM SYSTEM

LASER PROJECTORS AND ANTI-REFLECTION LIGHTING SYSTEM

FEATURE :

- Two Head cutting head
- Tool change is able to complete rotation of the cutting head, which feature on oscillating knife, marking pen, punch revolver located in a convenient and visible frontal position.
- Use DXF format, able to received data from all CAD software.
- Continuous nesting, without pause or change of work place, the operator maintains full focus on nesting the pieces on the skins carried by the conveyor belt.

Specification

Model : CZ-L

Cutting Area : 2000x850 mm
Resolution : 0.025 mm
Net Weight : 2550 Kg

Power Supply (three phase-neutral) : 400 V – 50 Hz
Max Power Consumption : 8 /15 KW
Max Cutting Speed (each head) : 50 m/min
