

CNC Cutting Machine for Leather & Synthetic Material CZ-XL

TITLED TABLE AND TELESCOPIC ARM

MICRO-SECTOR VACUUM SYSTEM

LASER PROJECTORS AND ANTI-REFLECTION LIGHTING SYSTEM

FEATURE :

- Two cutting head
- Tool change is able to complete rotation of the cutting head, which feature on oscillating knife, marking pen, punch revolver located in a convenient and visible frontal position.
- Use DXF format, able to receive data from all CAD software.
- Continuous nesting, without pause or change of work place, the operator maintains full focus on nesting the pieces on the skins carried by the conveyor belt.

Specification

Model : CZ-XL

Cutting Area : 2400x850 mm

Power Supply (three phase-neutral) : 400 V – 50 Hz

Resolution : 0.025 mm

Max Power Consumption : 8 / 15 KW

Net Weight : 3280 Kg

Max Cutting Speed (each head) : 50 m/min
