

Single Folding Machine USZ-215

FUNCTION

•Suitable for making different material (leather, PVC, PU, textile, etc) of shoes, bags, etc. folding the edge of these material with hot melt.

FEATURES

- Use touch screen, digital display for temperature control, hot melt flow control etc, staples speed change for hot melt flow.
- Advanced folding equipment, easy for operating and good folding quality.
- Folding edge can adjust from 3mm-6.5mm, by the mean time do the tape folding.
- Automatic cutting tooth function on circle, hot melt injection system has double protect.
- Motor automatic restores
- Efficiency of the machine is 5-10 times than folding by hand

SPECIFICATIONS

Model : USZ-215

Dimension

L1210*W550*H1160mm

Power

0.5Kw

Voltage

220V/380V

Weight

135Kg
