

Travelling Head Cutting Machine UTH-250

- * Gantry frame structure is adopted, with high intensity and without deformation.
- * The cutting head can automatically move horizontally with excellent operating visual field and safe and reliable operation.
- * The movement of cutting head is controlled by automatic speed variation to realize flexible movement with high speed and accurate positioning and without impact

Specification

Model : UTH-250

Working table	1,600x500 mm
Dimension of press head	500 x 500mm
Max cutting force	25 Tons
Adjustable travel	5~150mm
Dimension	2,200x620x2,000 mm
Weight	2000 kg
